TO: Engineering & Operations Committee
FROM: Kevin Collins, Purchasing/Warehouse/Fleet Supervisor
DATE: July 20, 2026
SUBJECT: Request the Committee Support the Purchase of Two JCB 512-56 Telehandlers for Camp Pendleton

Description

This request is to purchase two new JCB 512-56 Telehandlers for Camp Pendleton.

Purpose

When FPUD assumed operations at SRTTP and NRTTP there were telehandlers on site for use at each plant. The previous contractor rented these two machines at a very high rental rate, which FPUD took over when plant maintenance was transferred. The telehandler is a very versatile machine. The machines have swappable attachments for many uses; a front bucket to handle the biosolids and load trucks, a pallet attachment that can handle materials, and a vertical lift capability to act like a crane. The design of the machine is such that materials can be raised to a high level, but the material can also be lowered safely. There are no other pieces of equipment that can do all the tasks required.

FPUD staff sent out a Request for Proposals (RFP). This RFP was sent to 14 various equipment vendors, with responses received from six. Of those six, Equipment Depot was the lowest priced responsive and responsible bidder at a total of \$425,612.50.

Budgetary Impact

There is no budgetary impact. These vehicles will be purchased within the FPUD authorized budget, and the cost would be repaid over the remaining four years of the initial Intergovernmental Services Agreement (IGSA) with Camp Pendleton like other heavy equipment provided under the IGSA. At the end of the IGSA, the Telehandlers will become Camp Pendleton property.

Recommended Action

The E&O Committee recommend to the full FPUD Board of Directors that staff purchase two JCB 512-56 Telehandlers from Equipment Depot for the amount of \$425,612.50.
