LEAK ADJUSTMENT REQUEST FORM

Fallbrook Public Utility District 990 E. Mission Rd Fallbrook CA, 92028 (760) 728-1125

Customer notified by: phone

Owners Name:		
Site Address:		
Mailing Address:		
(if different)	Phone:	
Account No.	Cell:	
Email:		

Please provide, to the best of your ability, ample evidence of a leak (photos, receipts, or other, as available) and a leak timeline for the District to review. Please provide your comments and reasoning below. Things to consider are: when, why, how the leak occurred, and who repaired your leak, the pipe size, and duration of leak (most important!). To determine the leak amount the District must also be able to determine the amount of "normal" water use for the customer. Leak adjustments will be credited to the customer's account for the water quantity leaked - up to the wholesale cost of the water. Check here if the leak occurred during the winter months and may affect sewer flow calculations. Check here for commercial accounts, if leak affects sewer billing and flow charges and water did not go down the drain. Check here if you only want to have the sewer flow reviewed – with no leak adjustment/ credit. *Leak timeline (dates)* → <u>Start:</u> Stop: Repair: Comments: OWNER'S SIGNATURE: DATE: FOR DISTRICT USE: FPUD REVIEWER: _____DATE: _____ COMMENTS: Leak Amount: Credit Granted: \$
