

WATER RATES

FALLBROOK PUBLIC UTILITY DISTRICT / CUSTOMER BILLING INFORMATION

Meters are read in three cycles each month for billing periods ending on the 10th, 20th, and 30th. An account is placed in a cycle according to the location of the meter within the District. All customers are billed on a monthly basis. Payment is due and payable upon receipt and delinquent after the due date shown on the bill. In the event delinquent accounts are not paid by the lock-off deadline indicated on the bill, a delinquent processing fee will be charged and services may be interrupted without further notice.

* The District shall install Reduced Pressure Backflow Preventers on new potable water meter services when applicable pursuant to Section 19 of the FPU D Administrative Code.

** The property owner shall be responsible for the Reduced Pressure Backflow Device Retrofit pursuant to Section 19 of the FPU D Administrative Code. Once the device is installed, passes the backflow test, and meets the District’s standards, the device will become the property of the District. The device will be charged the standard monthly service charges and will be tested annually.
